Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Under the flat fee proposal you are considering, people who are low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

Sincerely,

Robert Neishi
